BACS to: WCBA; 40-28-18; 12119285

by 31 August 2022, after which entry cannot be guaranteed

RealBridge

Video and Voice capability is available as standard in RealBridge, which makes the experience as close to face-to-face as possible. There will be those who cannot, or prefer not to, use Voice and/or Video, and that is fine. It is possible also to switch off - without deactivating your own camera - the Video of partner and the opponents if you prefer less distractions on screen. The Chat facility is the formal means of communication unless all four players are using voice.
